RESPONSE

Mail Stop Sequence  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

In response to the Office Communication mailed April 23, 2003, please enter this response and the accompanying computer readable sequence listing, and consider the following remarks for the patent application identified above. Claims 24-27, 35-37 and 45-99 are pending. No new matter is introduced.

The Office Communication mailed April 23, 2003 did not set a one month period for reply pursuant to 37 C.F.R. § 1.135(c). Applicants' Amendment and Response mailed February 13, 2003 was a bona fide attempt to advance the application and was a substantially complete reply to a non-final Office Action. The Amendment and Response was incomplete only through inadvertent omission of an updated computer readable version of the sequence listing. The original computer readable version of the sequence listing had been submitted during the international phase of prosecution.

Therefore, Applicants respectfully submit that the present response is timely and completes a previous bona fide response. Applicants respectfully request further prosecution of the present application.

Applicants assert that each of claims 24-27, 35-37 and 45-99 are in condition for allowance, and notification to that effect is earnestly solicited.

The Examiner is invited to contact Applicants' undersigned representative at the telephone number provided below, if the Examiner believes that doing so will expedite prosecution of the application.

Respectfully submitted,

MERCHANT & GOULD P.C.
